INTRODUCING HENRY THE HORNET

We want to introduce to the student body, the faculty and to the readers of this annual our adopted mascot, "HENRY THE HORNET". He hails from the original pen and combined efforts of Janet Sipe, Connie Livesay and Patsy Waite, Art Editors of THE HORNET'S NEST. Connie had the first vision of him and with the help of the other two artists they managed to get him to pose for them while he was participating in various school activities.

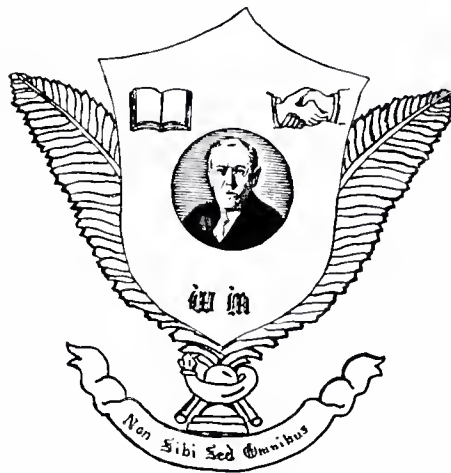

HENRY will be seen throughout this book taking part in all phases of school life. Notice him as he is when first a green uncertain freshman and then as he grows to a sophisticated soph, then a hopeful junior and finally when he becomes the most important person in the world; "A SENIOR". He even broke down and joined the faculty for a while!

We all hope that HENRY THE HORNET will be a friend and become popular with everyone. We like him very much and hope you will enjoy him and his antics when you read through the book.

WILSON YELLS AND SONGS

Two bits, four bits, six bits—a dollar
All for Wilson stand up and holler.

T-E-A-M—yea team
T-E-A-M—yea team
T-E-A-M—yea team
Ray Rah team.

Strawberry shortcake, huckleberry pie
V-I-C-T-O-R-Y
Are we in it? You're dog-gone right
Wilson Wilson fight fight fight.

Chicalacka chicalacka chow chow chow
Boomaraacka boomaracha bow bow wow
Chicalacka boomaracha who are we?
Wilson Wilson Wilson yes siree.

Had a little rooster
Set him on a fence
He crowed for Wilson cause he had some sense.
Stand him on his head, stand him on his feet
Wilson Wilson can't be beat.

Go back, Go back, Go back to the woods
You haven't, You haven't, You haven't got the
goods
You haven't got the rhythm, you haven't got the
jazz.
You haven't got the team that Wilson has!
Ray, Rah, Wilson.

Wilson, Wilson hear our call.
Wilson, Wilson get that ball.
Wilson, Wilson raise that score.
Wilson, Wilson we want more.

Come on gang spit out that chew
Grab that ball and suzie que . . suzie que, suzie
que.
Come on gang let's go to town
Grab that ball and truck on down, truck on down,
truck on down.
Ray, Rah, Wilson

And when that Wilson High Team falls in line,
We're gonna win that game another time,
And for the green and white we love so well.
And for that basketball team I yell, I yell, I yell.
We're gonna fight fight fight for every score.
And then we fight again and win some more.
We're gonna roll old on the floor, on the
floor.
Rah, Rah, Rah!

Wilson boys are highminded, bless my soul
they're double-jinted.
They play ball and don't mind it all day long,
Ho, Ho, Ho!
. boys are low-minded, bless my soul they're
stiff-jinted.
They play ball and can't find it all day long!

Yi Yi Yi Yik us, nobody like us
We are the team from Wilson Hi
Always a winning always a grinning.
Yi Yi Yi Yi Yi Yi Yi Yi Yi!

ONWARD WILSON

It's onward Wilson! It's onward Wilson!
Hold high your banner, green and white!
Keep fighting Wilson; keep fighting Wilson!
We sing our song for you tonight! (Rah! Rah!)
We're all behind you, we're rootin for you;
Your loyal team will surely try!
Their best is for you; they'll carry you through!
So, onward Wilson, Wilson High!

We've got the spirit, the real school spirit—
We're all for one and one for all.
We'll stick together, no matter whether
The skies are blue or raindrops fall.
A thousand voices give out in chorus
Your dear name echoes through the sky—
We'll keep it ringing, we'll keep on singing
So, onward Wilson, Wilson High!

Dedication

The Wilson Memorial High School annual staff, voted unanimously to dedicate the yearbook to our sponsor, who started it three years ago and has faithfully given her time to it since then. Under her unfailing guidance, the yearbook has been selfsupporting in the financial field and has contributed a great deal towards cooperation in the activities of the student body.

The staff believing bouquets and honors should be given to the person whose untiring services on our behalf are a part of the past, the present and the future, does as a token of gratitude, willingly and wholeheartedly dedicate this edition of the Hornet's Nest of 1949-50 to Mrs. Mildred Sublette.

WILSON MEMORIAL CALENDAR

SEPTEMBER	<p>Registration and enrollment. Here we are again with Middlebrook welcomed to our midst. We number about 1200 now and have a faculty of 50.</p> <p>The first football game with Madison. Wilson Memorial High School

In 1947 four former high schools from Stuarts Draft, Beverley Manor, New Hope, and Fishersville were consolidated into one large high school at the Wilson Educational Center, the former Woodrow Wilson General Hospital, located on route 250 between Fishersville and Staunton. The name chosen for the school was Wilson Memorial High School. This year there were about 950 students who attended the new school.

Again in 1949 the County School Board moved another high school, Middlebrook, into Wilson Memorial which added about 100 students to the enrollment. This addition plus new students has increased the enrollment to about 1200 pupils.

We are proud of our school and the progress it has made during the three years of its existence. Many of our graduates are now enrolled at various schools of their choice and are bringing prominence to our school. Others are making a successful place for themselves in business or by establishing homes of their own.

Did you know these interesting facts about your school?

Students are transported to and from school by 26 county owned busses.

99% of the students ride the busses.

Students are transported from as far as 30 miles from school.

47 teachers plus the principal and assistant principal make up the faculty.

Many of the teachers board or have apartments on the school grounds.

There are 52 classrooms in use.

There are 33 homerooms with these divisions; 6 senior homerooms, 7 juniors, 9 sophomores and 11 freshmen homerooms.

That there are 18 clubs in the school.

The *Wilson Echo* is our school newspaper and is published once a month.

That the Wilson Educational Center, is made up of three schools:

The State Rehabilitation Center, the Woodrow Wilson Technical School and Wilson Memorial High School.

There are 26 acres in the school grounds.

Howdyshell, was elected president of the class. Other officers are: Vice President—Melvin Fitzgerald; Secretary—Betty Lou Harner; and Treasurer—Don Chafin.

One party has already been enjoyed by the Senior class and we are looking forward to several more.

We are indebted to all our teachers who have made our high school days so enjoyable.

The memories we take from Wilson will be with us through all the years to come, and we can proudly call Wilson Memorial our Alma Mater!

The Senior Class Officers --- 1949-50

Have you heard the big news? You haven't? We thought everybody had—we're Seniors now! Isn't that wonderful!

We remember way back when we were freshmen. Of course we were at our former schools then—Stuarts Draft, Fishersville, Beverley Manor, New Hope and Middlebrook. Various activities went on in these schools in which we freshmen participated.

Then our Sophomore year arrived—and we started to Wilson! Happy day! We elected very capable class officers and during the year had a wonderful time.

By our Junior year everyone was thoroughly acquainted and everything was just a little more exciting than the year before!

At last—we are Seniors and this year a new group was added—Middlebrook. One of our Middlebrook students, Connard

Junior Class History

Juniors! Is it really true? Are we really three-fourths of the way to the end of our goal? Yes, we are, and to a certain extent we are happy about it. The idea of graduating in 1951 brings quite a bit of excitement to us. But remember in 1947, when we were the first freshman class to begin at Wilson? We thought we would never be able to get from class to class. Every thing looked and seemed so strange to us. It didn't take long for us to feel right at home though, did it?

Last year, as sophomores, we loved it! We had many parties and dances. We made new friends and attended the football and basketball games with great anxiety.

But this year, we just can't find words to describe it. We seem to love every moment of it. We have had several assembly programs. In November, at our assembly program, we elected Junior Class Officers. December was an exciting month for all of us. Our Junior Class held its annual party on the ninth. At our assembly program for the month, a dramatization of "The Night Before Christmas" was presented, which was very entertaining. On the twenty-second, each class had its own Christmas party and at noon, we were dismissed for the holidays.

With mid-term exams behind us, we are naturally looking forward to our final exams. We are in the midst of our basketball season and we are proud that our Junior Class is well represented with Billy Conyers playing varsity ball for the boys and Betty Lou Link playing for the girls. We are glad that Wilson High is making rapid progress in the field of sports as this has been our best year since its beginning. The latter part of our Junior year at Wilson will be climaxed with baseball in sports and the annual Junior-Senior Prom in the social field.

Yes, we are three-fourths of the way to the end of our goal. But we're sure you can see why we are both happy and reluctant about it. We've had fun, we've made new friends and we've broadened our knowledge in many subjects. Yes, we will be proud to be the first graduating class to have completed all four years at Wilson Memorial High.

Sophomore Class History

In September of 1948 over 300 freshmen entered Wilson with a carefree spirit, not realizing what was in store for them. At first they all seemed extremely clumsy, but after a while they became better acquainted and more accustomed to high school. Some actually found out that high school wasn't such a bad place after all.

This year the same group entered into school with greater spirit, knowing they were a recognized class at Wilson. Don't let us leave the impression that we were not recognized last year but at the time, as green freshmen, we had our doubts.

The members of this class participate in all extra-curricular activities provided. They hold many offices in the various clubs as well as coveted positions on the athletic teams.

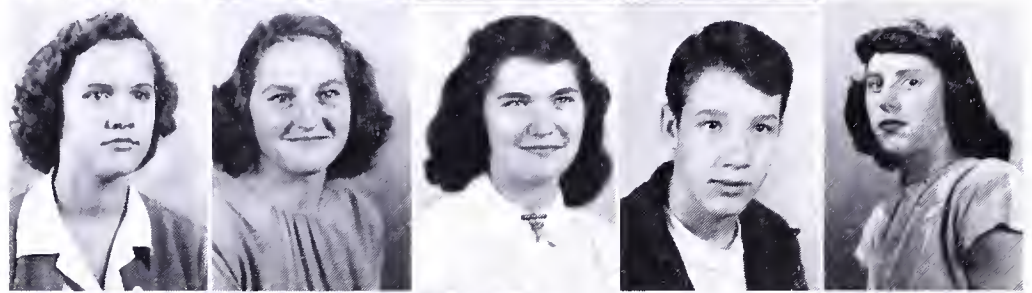

At the first class meeting in October the election of capable officers was begun and finished at a later date. These officers and the nine sophomore sponsors have helped make this an even better year than the last one. Now our big aim is to become "sophisticated juniors".

Freshman Class History

On September ninth students from Beverley Manor, Fishersville, New Hope, Greenville, Stuarts Draft, Crimora and Middlebrook entered at Wilson's doors. We thought we would never get used to the strange surroundings, but with the help of Mr. McChesney, teachers and fellow students we soon became accustomed to it.

We were all proud to have entering with us the freshman of Middlebrook.

On September sixteenth we were all excited about our first football game with Madison. We tried to show the boys on the team that we were interested in them and wanted them to win by attending the game. They played very good football and won over Madison's team.

We freshmen are all very proud to be attending Wilson and hope to be here next year. We wish to thank each member of the faculty and our fellow students for helping us to get acquainted with the unfamiliar surroundings of Wilson.

Girls' Health and Physical Education

The health and physical education department has a much improved program with the addition of more equipment, more instructors. Each day we hurry into our bright gleaming starched gym suits which make a colorful field for any sport. After calling the roll we engage in five minutes of calisthenics designed to develop coordination, rhythm and poise. The remainder of the period is used in learning skills and participating in sports. During the fall months we enjoy soccer. The soccer fields are laid off so that four teams can participate at once. When the weather permits, a limited number of girls are allowed to play tennis. Due to favorable weather we were able to continue these outside sports until in the late fall.

During the winter we share the gym with the boys rotating each day and on Fridays the boys and girls get together for social dancing. This year, dancing is more fun than ever since we had Mr. Chase to teach us how to folk dance. This has helped to solve the problem of bashful boys and girls. The two days a week, that we have the gym, we are divided into four squads to play basketball. The other two days we go to either B608 or 609, which the physical education departments use for calisthenics and work on skills. Having a large gym with eight basketball goals, we are able to have three games going on at one time. At the end of the basketball season we engage in an inter-class basketball play-off. In this event a great number of students will be able to take part. All the girls are looking forward to spring so that they can swim, play tennis and softball.

Again this year the students are receiving a broader and richer course in health and physical education. We believe that a health education program through classroom instruction will help students acquire and maintain a high standard of personal health. The physical defects such as bad teeth, diseased tonsils, and defective eyes were brought to our attention during the physical inspections which are given by our instructors three times a year. If we have a defect we are encouraged to have this corrected as soon as possible. Every freshman class has two periods of health instruction a week. They have stressed personal health and well being of the individual.

Units for health study are as follows;

1. Teeth and their care
2. Eyes and their care .
3. Proper care of the skin
4. Proper care of the hair
5. The functions and care of the principle organs of the body
6. Etiquette, common courtesies, etc.
7. Sanitation in the home and school
8. First-aid

Boys' Physical Education Program

We, the boys at Wilson Memorial, are experiencing a program in health and physical education designed to meet the needs of the boys in so far as it is possible with the facilities available.

Each class is broken down into squads of about 8 or 10 students. The individual squad has a captain who directs it in its various activities. The boys are encouraged to change into old clothing and gym shoes before participating in the activities. This is not only a protection for good clothing, but also tends to insure safer participation. At the end of each class period the boys are given ample time to take a shower. They are encouraged to shower each day as this is a part of healthful everyday living.

At the beginning of each class period we take 3 to 5 minutes of calisthenics of a nature that tends to develop coordination and provide exercise for the major muscle groups. Immediately following the calisthenics we participate in such sports as touch football, basketball, softball, volleyball and track. From these we not only get plenty of physical exercise, but we learn to appreciate and enjoy those sports as forms of leisure time recreation. Such activities also help the boys to learn the importance of teamwork, cooperation, sportsmanship and the proper attitude toward one another. We engage in these activities on a seasonal basis. In addition, there are other activities in which we participate which are excellent leisure time recreational sports. Among these are horseshoes, swimming, tennis, handball, and checkers. One can enjoy these sports where there are but a few to participate.

Each Friday during the winter months the boys and girls and classes in physical education are combined for folk games, square dancing and social dancing. This is a most vital part of the program. Not only is dancing a pleasant recreational past time, but it is excellent in helping boys to develop rhythm, poise and muscular coordination. It is here also that boys learn to associate with girls on a high plane. The effects of this training is felt at our many school parties. Gone are the days when boys and girls stand around the wall of the social center suffering from a feeling of social incompetency. The boys who really take advantage of the opportunity to learn to dance find our school parties are a lot of fun. This year we were fortunate in having Mr. Richard Chase, a noted folklorist, lecturer and author, to spend several days and nights with us. Under his direction we learned a number of folk games and square dances which we continue to enjoy at our school parties.

The health side of the health and physical education program is tied in very closely with the physical activity side. It is only the freshmen who are able to have two days each week of health instruction. In our health classes we learn how to conduct ourselves properly at school parties and the common courtesies to be shown girls. This year we did considerable work in first-aid. A most important part of the health program for all boys is the physical inspection which is held in October, January, and May. During this time a careful check is made of our teeth, eyes, ears, throat, height and weight. Upon the discovery of some physical defect we are encouraged to have these corrected as soon as possible. Through the health and physical education report card our parents are notified that the defects do exist. We are taught that by having remediable physical defects corrected, eating plenty of good food, getting sufficient rest and exercise and engaging in wholesome recreation we can enjoy a state of health that will be most important in helping us experience an enjoyable school life.

Starting at the top and reading around to the right the cheerleaders are: Ann O'Brien, Jewell Campbell, Jo Ann Karicofe, Betty Lou Harner head leader, Jack Blacka, Margaret Boyd Berry, Virginia McCormick, Patsy Wampler, Rudy Hull, and Shirley Wright.

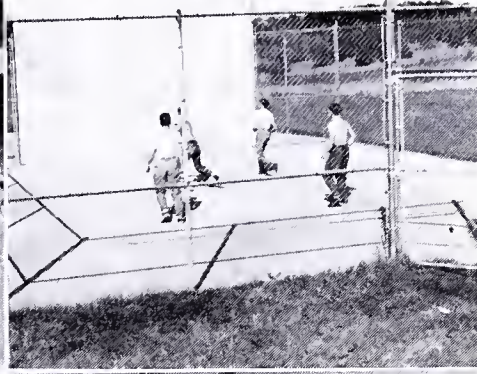

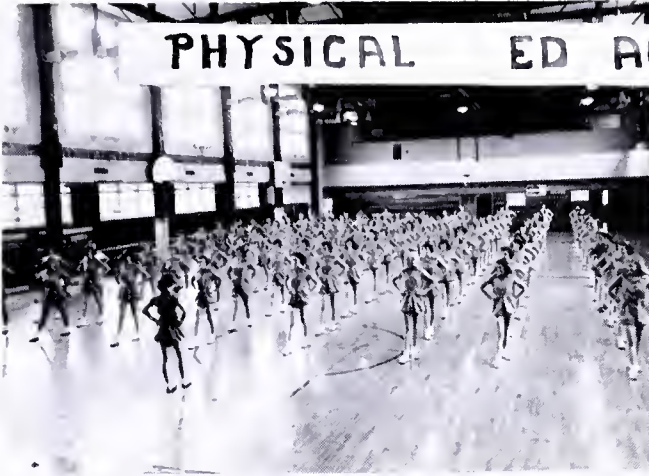

CHEERLEADERS

Does everybody know our cheerleaders? Although we think everyone is acquainted with them we'll introduce the new ones that have just joined the group this year. They are Shirley Wright, Virginia McCormick and Ann O'Brien. Then of course those good looking boys who have attached themselves to the group are Jack Blacka and Rudy Hull.

There have been two midget cheerleaders this year who have added a lot to the cheering section. These two little tikes are Pat O'Brien and Jrammie Tanksley.

Mrs. McCrary is sponsor of the group. These girls have had a lot to do with the enthusiasm and pep the students have exhibited at the games and the good school spirit which is shown.

IMPATIENCE

What makes the wind begin to blow
In spring about the time the snow
Is gone? What makes the clouds appear
Along about this time of the year?
What makes the rain fall down so hard
Upon the roof and in the yard?

Could it be the way it seems,
Impatient with a winter's dreams
Of summer, and of summers fun;
We long to know that winter's run
His course, and look for signs of spring;
Impatient for the birds to sing?

—ENGLISH III, FIRST PERIOD CLASS

APRIL SHOWERS

Tinkling, sprinkling, tiny raindrops
Sounding merry as a bell;
Slanting, chanting in the sunlight,
Gently, gently, cast their spell.

Dancing, prancing in the puddles,
Tumbling lightly on the lawn;
Falling, calling to the children,
"April's here and winter's gone."

—LOTTIE FITZGERALD

APRIL SHOWERS

Silver shining rain drops
Sparkling in the sun,
Splashing on the roof tops;
Notice how they run
Down the drain
And out across the yard.
I like April showers when
It doesn't rain too hard.

A technicolor rainbow
Done in kodachrome;
Colors in a painted row,
Over mountain dome,
Cross the plains
And valleys and
Across the hills so high.
I like April showers when
A rainbow's in the sky.

An hour before the stated time
She starts to fix her face.
Half an hour before he's due
She has begun to pace.
Up and down the hall she goes—
Oh, what if he is late!
She can tell no one her woes :
You see, it's her first date.

Fifteen minutes yet to go
"Do you think I look ok?"
The answer is "Of course you do."
What else can a person say?
Nervously, she sees the time
How long the minutes are.
What if he shouldn't come at all—
Oh, I think I hear a car!

The doorbell rings ; she runs upstairs
(She says to comb her curls)
Her mother stalls the boy a while.
(She knows the way of girls.)
At last back down again she comes
And greets him with a smile.
She's changed her dress, and fixed her hair
And walked that longest mile.

THE SCARLET GLADIOLA

Standing alone in what was once a beautiful garden was a scarlet gladiola.
A large deep, dark red flower stands as a sentinel over the grave of a beautiful
woman who had planted it.

A huge weatherbeaten frame house stood a few hundred feet away on a

knoll overlooking the Mississippi river and the garden. The house was of the old southern plantation design. The furnishings of the deserted mansion were covered with inches of dust and yards of cobwebs. Huge rats were the sole inhabitants and made use of all the furniture.

A large living room dominated the front of the house and to the back of it was the dining room and a smaller living room. All of these rooms were trimmed in either a deep or a light red.

Upstairs were the lofty-ceilinged bedrooms and the immense ballroom was on the third floor.

In the most prominent corner of the ballroom was the painted, full-length portrait of a very beautiful woman. Her mass of curly auburn hair hung to her waist and was held in place by a comb with ruby sets. Her eyes were dark brown and her mouth and nose were exquisitely shaped. Her gown was a deep wine velvet and in her hand she held one lovely red gladiola, similar to the one in the garden.

In my imagination I could see her dancing and laughing in the ballroom, flirting with every man she saw but no one in particular.

But the story I had heard about this girl would not let my imagination go on in that channel.

An old negro had told me that Gladys, for that was the lovely creature's name, had loved flowers and was very kind and sweet. She had once been the most beautiful girl in the south, but that had not spoiled her.

Her favorite flower was the deep, dark red gladiola. She died when she was very young, of pneumonia and ordered, after she died, all of the furnishings in the house be done in red. All the flowers were dug up in the garden and destroyed except the one red gladiola.

She ordered this because she loved a Spaniard who first time she saw him, was at a fiesta in Brazil and was dressed in deep, dark red velvet. She fell in love with him and used to love anything that was red. But he was killed in a ship wreck off the coast of Cuba when he was coming to marry Gladys.

She lived to be twenty-nine and as most folks say, just grieved herself underneath that gladiola in the garden.

SNOW

Slowly snow is riding down
Upon a chilling breeze;
Soon to cover all the town
And all the trees.

All the snow has fallen now
Through this chilling night;
I have always wondered how
The snow could be so white.

—MICKEY DAUGHERTY

JIMMY CRICKET

It was a late Sunday afternoon when Jimmy came riding down the dusty road on an old thread spool that had been fixed up with a rubber band and two match sticks. Jimmy was just getting back from town. He had been to town to buy himself a blunderbuss shotgun, some shells, and a red coat.

The next morning he got up and saddled his horse-fly, got his dog and rode away. When he got to the woods he got off his horse and walked into the cool woods. He sat down on a tree trunk, put in a plug of tobacco and relaxed. He did not have to wait long before a deer came down through the woods. He shot but just took off a piece of the deer's short tail. He reloaded his gun and took after the animal. He made his way through the brush and saw the deer. He shot again but missed. The deer just stood there and looked, because he knew Jimmy could not hurt him. "Alas", Jimmy said. He had just wasted all his powder. The deer stood and looked at Jimmy for awhile. Then suddenly he had an idea.

He came over and grabbed Jimmy by the coat and pulled. Jimmy followed him and the deer took him to a bear cave. The bear came out of the cave and chased the deer. The bear had the deer cornered, but Jimmy had a trick up his sleeve. He pulled out his gravel shooter and got his watch chain out. He pulled back the rubber band and let go. The chain caught the bear around the neck and pinned him to a tree. The deer came up to Jimmy and licked his hand.

But now Jimmy had a problem on his hands. How was he going to get the bear out of the woods. He thought a minute and then walked over and pulled down a sapling, tied a string to it and tied the other end of the string to a trunk. He walked over to the bear and dragged him to the prongs of the sapling. He cut

the string and the bear flew through the air. When he got back to his horsefly he found the bear lying on the horsefly's back. He crawled up on the bear and went for a long ride home. When he got home he fixed the bear with spices and seasoning.

Well, Jimmy never got over killing that bear the way he did and to this day you can still hear Jimmy tell his grandchildren about it. And if you go to Jimmy's house you can see Jimmy's rug with the chain around the bear's neck. As for the deer he has great great grandchildren and great, grandchildren. He visits Jimmy very often and he really laughs at Jimmy when he tells his story, because it does sound funny and miraculous and the deer wouldn't be here if it hadn't happened.

THE BEAUTIFUL PARK

I am glad that I live near a park,
For in the winter after dark,
And every morning, I can play
In the park across the way.
I can run and I can shout;
I am glad when I come out
And see the park lights shine bright and still
As dandelions upon a hill.

THE BIG GAME

The day of the final football game dawned clear, but Jerry arose with an uneasy feeling in his chest.

"Oh why couldn't it have been raining?" thought Jerry, who was the star halfback of Clinton High's team.

Jerry descended the steps with a heavy heart to prepare breakfast for his invalid mother.

"Why did my Dad have to get killed and in doing so injure my mother?" Jerry mumbled as he started the fire. Here his mother lay, unable to earn a living for them, so Jerry was forced to work late into the night after a strenuous football practice to earn enough money to keep both of them alive. The going had been rough and Jerry had been tempted many times to do anything to get "easy money".

Temptation over ruled his conscience, and last night when the big husky looking boy from Washington High, which was Clinton High's biggest rival, and opponent for today's game, waved ten dollars in front of his face, the temptation was too great.

"How could I be such a traitor, and be so unfair to my team and coach?" thought Jerry as he kicked the leg of the stove in disgust. Jerry's mind was filled with flashing memories of the times that the coach had pulled him aside and discussed the secret plays with him, thinking they would go no further—and they hadn't until last night.

Bang! The lid of the stove came down as Jerry realized that he had caused his school to break their year's record by losing the final game.

Jerry went off to school, his mind on everything except studies. The coach greeted him with a friendly "good morning", but Jerry couldn't face him or look any of his team mates straight in the eye.

In the locker room the whole squad was in high spirits over the new secret plays they were going to use—everybody except Jerry, who dressed quietly and vowed to himself that he was going to play harder than ever to make up for what he had done. He didn't understand his being such a traitor to his school over ten dollars.

As the team ran out on the field the cheers from the bleachers sent a cold chill up Jerry's back.

At the half the score was 12-6, Washington's favor, Jerry had played most of the game and it seemed to him that everywhere he looked he saw the face of the boy to whom he had sold the secret plays. Each time he saw the face he played harder than ever.

There were just two minutes left in the game. Clinton High had just made a touchdown to tie the score, and now the whole game depended upon Jerry. If the kick was good, it would be Clinton High's game. The team was in position and Jerry started back to make the kick.

He made it! The score was now 13-12 and the game was over. Jerry walked off the field straight to Washington's locker room where he found Bob. "Here's your money, Bob, I don't want it."

"No, Jerry it was a fair bet. Even though you told me the truth about the plays, your team won by hard clean fighting."

"Bob, it wasn't fair to my team and coach and my conscience will feel better if you take the money. Is it a deal?" asked Jerry.

"O Kay, Jerry," Bob answered.

"Thanks Bob," Jerry added as he made his way across the field with a much lighter heart. His teammates slapped him on the back, but Jerry was so happy over the victory that he hardly realized what any of them were saying.

That night after work he hurried home to tell his mother. It was 10:30 and he noticed as he climbed the steps that the light was on in her room. This was unusual, because she was always asleep when he got home. He opened the door to see his mother sitting up in bed, looking better than ever, reading the evening newspaper which told of Clinton High's victory and what a star her son had been in the game.

EVENING CLOUDS

The clouds are floating in the sky
Like cotton balls in pale blue ink,
Sometimes they float, sometimes they fly
And then they turn to rosy pink.

Why do the white clouds change this way?
Sometimes their lovely golden tint
Will turn into a graven gray
And then you wonder where they went.

—DONIA LEE GROVE

THE MOON

In the stillness of the night,
I love to watch the moon so bright
As it climbs the mountain's peak,
It glows as though a golden streak.

Then it steals across the sky,
In and out the clouds near by,
Winking at the twinkling stars,
Passing by ole man Mars.

If it followed the Milkyway,
I wonder where t'would be today.
I only hope there'll always be,
A wise ole moon for me to see.

—PATSY WAMPLER

A DAY

It's dawning, when the sunrise rushes in
the break of day,

And the clouds in royal procession, roll
westward on their way.

Now behold the noon-day sun, gleaming in
all its splendor,

A warmth and happiness to us and all the
world to render.

Just watch the golden sunset at close of
eventide;

O'er the western horizon, its body seem to
hide,

But wait, for moments later on, moon and
stars appear,

Their light and constant guidance to shed
upon us here!

As time runs into darkness, and we sleep
and wake from rest;

'Tis another day, a dawning—Each one
different from the rest.

—RUTH WADE

THE THUNDERSTORM

And to think, just fifteen minutes ago the sky was a deep azure blue with white fleecy clouds skipping playfully about, while now a dark threatening gray hovered over us. It seemed that almost every second a streak of brilliant lightning flashed across the darkened sky, followed by the crashing thunder.

Jill sat alone in the opposite end of the rickety rowboat, with her head, excepting one yellow pigtail, completely covered with her wool sweater. It seemed a miracle that I had kept the heavy oars from slipping over the sides in the turbulent waters of the lake.

With the next deafening burst of thunder, came the pounding rain, which within a few moments had practically drenched us. Now and then, when a gust of angry wind came from Jill's direction. I could hear her frightened sobbing; I was too scared to cry!

I prayed that the rain and wind would let up and we could return to the lake shore. I was certain if the wind carried us farther out I would not have the strength to row us back.

The rain seemed to let up slowly, little by little, and then, as if it were teasing us, it would come down harder than ever.

Now, as suddenly as the storm started, the wind died down, the clouds were swept from above, the rains receded, the thunder sounded no more, and the thunderstorm was over.

THE STONES

It was nearly dark in the valley, but the sun still cast a greenish glow on the cemetery on the hill.

I was attracted to the place of death for some strange reason. The old stones were sticking out of red, grassless earth like dead branches on a dead tree. A group of stones caught my attention. They were arranged in a circle as if trying to protect one another. The stones were old, very old, and I saw that the family name was Strange. There must have been at least thirty ancient stones, and I marveled at the size of the family. They were all marked singly with the name Strange and the date 1779. I stopped short in front of a brownish green stone in the center of the circle. There was something eerie about that stone and I stooped to see if there was any inscription. There was. It said, "Strange—As you are now once was I, as I am now, you soon will be." The other stones seemed to nod in agreement.

MUSICAL REVUE

"GAY NINETIES

THEME SINGERS

SONGS OF ROMANCE

Nearly 1,000 patrons and friends of Wilson, attended, on November 11, 1949, a Musical Revue, presented by a cast of approximately 200 Wilson students.

The program, ranging from songs of the Gay Nineties, to those of Modern Hit Tunes, consisted of Four Parts. Each section was appropriately introduced with a number sung by the Theme Song Chorus, which included Betty Wiseman, Peggy Ross, Betty Cook, Jayne Viel, Mary Alice Phillips, Jack Blacka, Glenn Fulwider, Ernest Hughes, Bobby Hughes, and Mickey Parrish.

Part I, The Gay Nineties Act, with a cast attired in colorful costume of handle bar mustaches, top hats, and hoop skirts, presented such old-timers as "The Man On The Flying Trapeze", "The Band Played On," and Bicycle Built For Two." Featured as the man on the flying trapeze, was Preston Archart; Don Chafin and Laurada Keister, as Casey and his "strawberry blonde, and Billy Graham, and Jean Hodge, as Daisey and her suitor, added much interest to the songs presented. A favorite in this act was the barber-shop quartet singing, "Tavern In

the Town," with Bill Clem, Paul Almarode, Sonny Samples, and Marion Miller, who made up this foursome.

Black-faced minstrels made a lively entrance for Part II, singing "Are You From Dixie"? Special features of this act included the "Harmony Twins", Dorothy Mullenax and Ann O'Brien, singing "Shortin' Bread", Joe Harmon, soloing in "Lucky Ole Sun," special music by the school band, and a dance act by Charles Acree.

The slapstick boys presented David Meyerhoeffer as interlocutor, while Raymond Shull, Charles Acree, Bobby Green, Joe Harmon, Tommy Bartley, and Graham Pitsenberger were very much at home, as the endmen.

In Part III, the cast took the audience to "Far Away Places", featuring native dances of Hawaii, Spain, England, and America, (Sioux Scalp Dance). Larry Lyons sang an Irish song, to the accompaniment of an autoharp. The lighting and costuming deserved special mention in these scenes.

The concluding Part IV, consisted of modern songs, opening with a trio, "Dreams", sung by Mary A. Phillips, Jayne Viel, and Peggy Ross, was very colorful. "Skip To My Lou" and "An Old Fashioned Walk" concluded Part IV.

The Grand Finale, with all members of the cast, ended the show, singing, "Good Night, Dear Friends."

Mickey Parrish served as Master of Ceremonies, and Miss Peggy Smiley was the accompanist. The production was under the direction of Mrs. B. G. Heatwele, and Miss Betty R. Kyle.

LIBRARY

Are you looking for a quiet place around Wilson to relax and read a good book, a magazine, or the newspaper? If so, the library, with approximately ten thousand books is just the place.

This year our library has a new set-up. Miss Lina Hupman is still our capable librarian, but she is assisted by Mr. Ralph Lutz, who is now a full time worker in the library. He helps the students find the materials they need to supplement their work in other classes as well as to help them select books which they will enjoy reading.

I'm sure we will all agree that our library under the efficient supervision of Miss Lina Hupman and Mr. Ralph Lutz is one of the highlights of our school.

OUR LUNCHROOMS

The Seniors were really surprised when they came back to school last fall and found they had a cafeteria all their own. Of course, the main reason for adding the Senior Cafeteria was to take care of the growing enrollment so that students would not have to wait too long in line. About two hundred seniors and teachers have lunch here and twenty teachers are served breakfast and dinner.

Approximately the same number of students are served in the lunch room as have been served in the past. Ten men and two women make up the personnel which prepares and serves the meals to the 900 people who eat each day. Gee! can you imagine how much food it takes to feed so many people? If you really want to know just ask the boys and girls who take general Home Economics and they can tell you just about how much it costs to serve most of the menus too. And while we are on this subject let's don't forget the other boys and girls who help in serving our meals. Thanks, men and women, boys and girls for job well-done.

"The Hornets Nest" Staff

This year the HORNET'S NEST Staff has had to work extra hard because there are so many more students enrolled in school which means more pictures to handle and more activities to indulge in.

The staff was chosen last spring so this year everybody was to start work immediately. We welcomed two incoming Freshmen and two students from Middlebrook, to our group.

Soliciting ads was not too easy as some of our best advertisers felt they could not afford to give large ads like they had been giving. Mrs. Sublette slightly dampened our spirits the first day, telling us this, but in spite of every handicap in soliciting, we felt that it was a success. To those students who had never been before it was an experience they will not forget for a long time. This is not the only time we have fun as our annual banquet which is held in the spring is one of the highlights of the year.

We wish to thank both students and faculty for their full cooperation in this venture. Without it we could not have completed our task.

We sincerely hope you will enjoy this issue of the HORNET'S NEST.

The Wilson Echo

In its second year of existence here at Wilson, the *Wilson Echo*, published by the Journalism class, has an entirely new staff. As this subject can be taken only one year, the staff is changed yearly and the paper is published along with learning in the class period.

The first issue of the 1949 paper was ready for distribution October 24th and it has been published once every month during the rest of the year.

There were many suggestions as to improvements that could be made, so with these suggestions in mind the *Wilson Echo* staff is endeavoring to publish a larger and better paper.

The staff this year includes:

Julia Demastus—Joe Harman.....*Editors*
 Monk Miller*Business Manager*
 Buddy Livick—Patsy Waite....*Circulation Manager*
 Billy Graham—Joyce Chandler.....*News Editors*
 Ann Harris—Ruth Benson.....*Social Editors*
 Jayne Veil—Peggy O'Baugh.....*Feature Editors*

 Mrs. Mildred Sublette.....*Faculty Advisor*

The Student Council

The Student Council, which is the student governing body of the school is composed of a representative from each homeroom and club and the four class presidents. Then because Middlebrook was new this year they were given the privilege of having two representatives. All members meet every Tuesday at alternate periods to talk over and discuss ways and means of bettering the school. The general S. C. A. assemblies which are held several times a year are also planned by the Student Council.

Officers elected by the students in the spring of 1949 are Preston Archart, President; Mickey Parrish, 1st V. Pres.; Ann Massinecup, 2nd V. Pres.; Betty Lou McCune, Secretary; and Grady Martin, Treasurer. Billy Graham reports the news. Faculty advisors are Miss Meade, Mrs. Hering, Mr. Swartz and Mr. McChesney.

Some of the responsibilities of this organization are to see that the school handbook is published and distributed, to handle and sponsor all drives for causes such as Red Cross and The March of Dimes, to see that committees are appointed to keep the infirmary, the washrooms and drinking fountains clean and attractive. All questions pertaining to school welfare are brought up here and the best method of solution is put into effect after the faculty has given its approval.

Beta Club

This year the officers of the Beta Club are:

LAURADA KIESTER	<i>President</i>
MARY ALICE PHILLIPS	<i>Vice President</i>
PEGGY MOORE	<i>Secretary</i>
GRADY MARTIN	<i>Reporter</i>
JACK BLACKA	<i>Assistant Reporter</i>
MRS. THERESA LUTZ	<i>Sponsor</i>

Membership of Beta members is determined by scholarship, character, achievement and attitude.

We encourage students to take part in many contests open to high school students during the year. Beta students are helped financially if they go to college.

In the spring of each year there is a state convention held. We try to have a large representation at this meeting.

This year we took in forty new members and with their help and the continued support of every old member we hope to continue to be an even bigger and better club at Wilson.

Wilson Memorial Science Club

The Science Club with 80 students as members met on September 28 and re-organized with the following officers: President—Preston Arehart; Vice-President—Patsy Wampler; Secretary—Betty Cook; Treasurer—Hugh McLaughlin; Sponsor—Mrs. B. G. Heatwole; Co-Sponsor—Miss Samuella Crim.

Plans were made for the programs and projects for the coming year. The Club meets each Monday morning and the time is devoted to business and planned programs which include lectures by guest speakers, movies, and demonstrations. Individual and group projects being done include the building and repair of radios, study of first aid and blood testing, finger printing, developing, printing, enlarging and toning of pictures; making Christmas cards; making model airplanes and racers; making cosmetics; collections for science hobbies, and taxidermy.

The Club in co-operation with the Music groups presented a Musical Revue, and from the funds made purchased a 16 mm. movie camera for the school.

The Club is planning individual and club exhibits to enter in the Regional Open House for Science Clubs, and plans to send delegates to the Virginia Academy of Science.

The Club is affiliated with Science Clubs of America and the Virginia Junior Academy of Science.

Chemistry Club

The Chemistry Club was organized the first of the year and consists of around seventy-five members.

The Club meets one Wednesday each month during class period. These meetings are based on Chemistry work such as cosmetics, household materials, and etchings on glass and metal blowing.

The members are also doing individual work, which will be entered in a contest at the Regional Open House in Charlottesville.

Officers elected for 1949-50 were:

DAVID MEYERHOEFFER, HUGH McLAUGHLIN	<i>Co-Presidents</i>
MICKY PARRISH, HUNTER MABRY	<i>Co-Vice Presidents</i>
MILDRED MEYERHOEFFER, BETTY HAMMER	<i>Co-Secretaries</i>
TEDDY McCRAY, JO ANN KIRACOFE	<i>Co-Treasurers</i>
BOBBY GREEN, JEAN HODGE	<i>Co-Reporters</i>

The Future Farmers Of America is a non-profit, non political, farm youth organization of voluntary membership, designed to take its place along with other agencies striving for the development of leadership, the building of a more permanent agriculture, and the improvement of country life. It constitutes one of the most efficient agricultural teaching devices that has been discovered up to the present time. The F. F. A. is 100% American in its ideals and outlook and has no outside affiliations. There is no secrecy in connection with any of its Activities. The Wilson Memorial Chapter is the largest Chapter of Future Farmers in the State of Virginia.

Future Homemakers of America is a national organization of pupils who study homemaking in high school. Membership is entirely voluntary.

Future homemakers work together for better and happier homes for this is the most important thing that youth can do for democracy.

Our chapter at Wilson, consisting of sixty-seven members, is affiliated with the county, state and national organization.

The officers are:

SARA AMBLER	<i>President</i>
PHYLLIS WRIGHT	<i>Vice President</i>
NANCY KISER	<i>Secretary</i>
ELOISE HEWITT	<i>Treasurer</i>
JANIS COOK	<i>Reporter</i>
MARY ELLEN CHANEY	<i>Historian</i>

The Sponsors are:

Miss Kathleen Rhea, Miss Janet Wick, Miss Helen Sherman, Mrs. Jessie Shomo

Future Teachers of America

"Since wars begin in the minds of men, it is in the minds of men that the defenses of peace must be constructed."

Our FTA club at Wilson Memorial is prevocational and exploratory in nature. Our major function is to inform and convince the finest, most capable of the high school students that teaching offers great opportunities and deep satisfaction.

Inasmuch as no one can teach more than he is, FTA places strong emphasis on sound living habits. Its ideals are embodied in the FTA pledge, to which each member subscribes, as follows:

The good teacher requires:

Physical Vitality. I will try to keep my body well and strong.

Mental Vigor. I will study daily to keep my mind active and alert.

Moral Discrimination. I will seek to know the right and to live by it.

Wholesome Personality. I will cultivate in myself goodwill, friendliness, poise, upright bearing, and careful speech.

Helpfulness. I will learn the art of helping others by doing helpful things daily in school and home.

Knowledge. I will fill my mind with worthy thoughts by observing the beautiful world around me, by reading the best books, and by association with the best companions.

Leadership. I will make my influence count on the side of right, avoiding habits that weaken and destroy.

These things will I do that I may be worthy of the high office of teacher.

The High School Band and Orchestra

The Band is composed of about ninety members. Twenty-nine of these are in the advanced group, while the other make up the two beginner's classes.

On Monday and Wednesday of each week the Activity Band meets and on Tuesday and Thursday the Orchestra group practices.

Both groups have increased in popularity this year and new members have been added.

Officers for the present year are: President—Robert Glover; Vice President—Elwood Gilbert; Secretary-Treasurer—Phil Chafin; Sergeant-at-Arms—Bobby Green; Instructor—James S. Farrow; Assistant Instructor—Jackie Meeks.

Pep Club

"Work" could easily be the by-word of the Pep club for it is certainly one of the hardest working organizations on the campus. Heading the Pep Club are Betty Lee Stover, President; Betty Lou Harner, Vice President; Doris Baber, Secretary and Treasurer; and Margaret Boyd Berry, Reporter. Mrs. McCrary is advisor.

The Pep Club sponsors the annual Athletic Dance which is held in the Social Center each year, honoring all the boys and girls who take part in any of the sports around Wilson.

The chief objective of the Pep Club is to create better school spirit. Most of the posters in the halls are made and posted by the poster committee. Finances are a problem of any club, and this includes the Pep Club. They have solved this problem by opening the school Supplies store in the Social Center where paper and pencils are sold before school each morning.

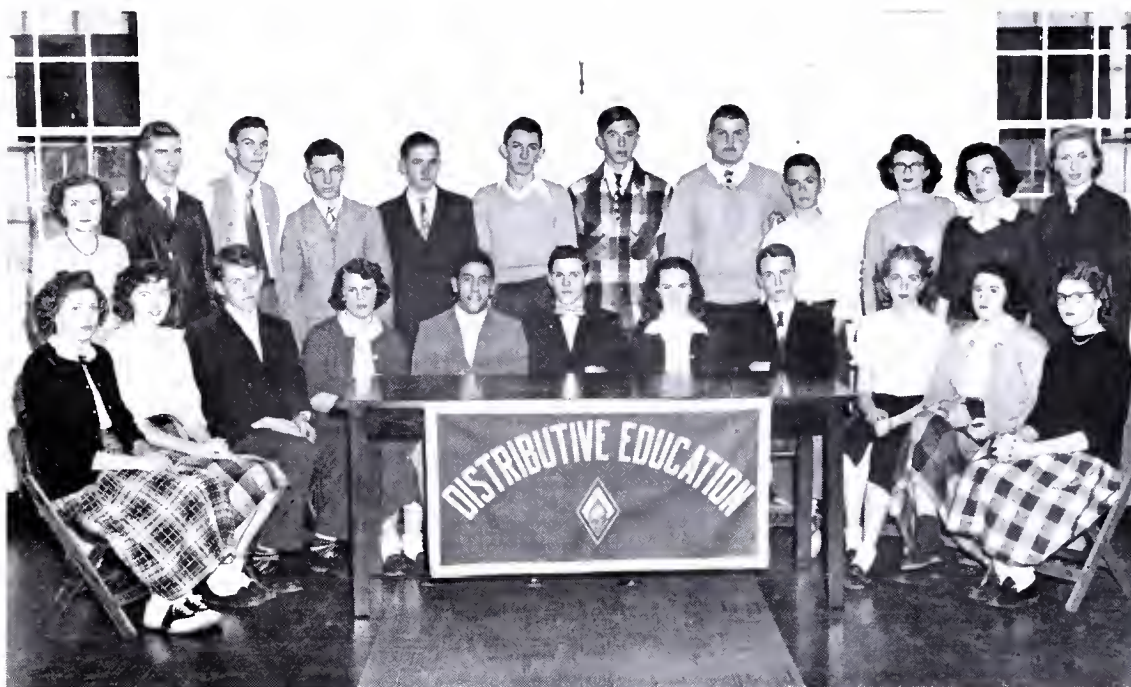

Glee Club

This organization is composed of approximately one-hundred-seventy Wilson students who are interested in singing.

This group meets twice a week during Activities Period, and for those students who are not enrolled in a music class, the glee club provides a means of participation in a musical activity.

Music used in this group consists mainly of the "Community type song"—music which is light and of interest to everyone.

The Glee Club officers are: President, Faye Dickson; Vice-President, Margaret Hanger; Secretary, Virginia Wilson; Treasurer, Barbara Massey; Reporter, Patsy Vines; Sgt. at arms, Martha Cline; Assistant Sgt. at Arms, Jimmy Ross and Accompanist, Patricia Garber.

Distributors Club

The Distributors club is composed of members of the Retail Training class. The purpose of this club in coordination with the class, is to bring together in various activities, students who are interested in learning more about retailing.

The high school club is affiliated with both the State and the National organizations. The members take an active part in the organization as a whole and one student is selected to attend the State Convention each year.

On the Second Friday of each month the Distributors Club holds its meeting in the classroom.

The officers are as follows:

Billy Wilson	<i>President</i>
Frank Wilkerson	<i>Vice-President</i>
Maxine Bailey	<i>Secretary-Treasurer</i>
Lewis Rusmisell	<i>Parliamentarian</i>
Buddy Livick	<i>Promotional Editor</i>
Miss Barloga	<i>Sponsor</i>

One of our many club projects is to operate the Store in the Social Center for the pleasure of the students and teachers. Its candy or ice cream for many students after they eat lunch not to mention meeting girl friends and dancing. The D.E. Store which is under the management of Clarence Kirby with voluntary workers to help, runs on a very definite cash and carry basis.

Another successful club project this year was the National Association of Tuberculosis drive which was carried on by the D.E. Club. Money was collected and bangles distributed by club members. The drive was very successful and club feels proud of the chance to have helped such a worthy cause.

Language Club

The Language Club is composed of those students who are taking Spanish, French or Latin or those who have completed two years of these languages. There are three organized groups, sponsored by the teachers who teach each respective language. The activities carried by each group help to enrich the cultural background of the pupils, and promote appreciation and enjoyment of the languages studied in the classes.

GIRLS 4-H CLUB

The Wilson Memorial girls 4-H club meets the first and third Mondays of each Month.

The elected officers are as follows:

Barbara Massey	<i>President</i>
Frances Riley	<i>Vice President</i>
Goldie Massey	<i>Secretary</i>
Shirley Harris	<i>Reporter</i>
Geraldine Demastus	<i>S.C.A. Representative</i>
Joe Engleman	<i>Song Leader</i>

We have enjoyed working with our leaders Mrs. Louise Cooley and Mrs. Quillen on place Cards for Christmas, the care of the hair, the care of the skin and the improvement of personal appearance.

Our project chosen for the year was "Good Grooming."

BOYS 4-H CLUB

The boys 4-H club of Wilson is made up of about 26 members from all classes. We meet the first and fourth Mondays of every month in the conference room with Mr. R. L. Coffey our club leader and advisor.

Each year there are new officers elected. The officers which were elected for this year are:

Bill Hevener	<i>President</i>
Larry Archart	<i>Vice President</i>
Billy Custard	<i>Secretary</i>
Herman Frazer	<i>Reporter</i>
John Drumbheller	<i>Sergeant-of Arms</i>

Safety Club

The Safety Club meets with Mr. J. W. Berry on the first Thursday of each month in the conference room. Only boys who have been chosen and approved by Mr. Gilkerson, Mr. Dehaven, Mr. Berry and the agriculture teachers and those boys who have proven their capability in operating buses are allowed to transport students to and from Wilson. These boys and their substitutes make up the greater part of the safety club.

The purpose of the meetings is to present problems confronting the drivers and to discuss policies of safe and efficient bus operation.

With the addition of Middlebrook our number of buses has increased to twenty-four this year. These buses transport approximately 1150 students to and from points in the county as far as Swoope, Greenville, Sherando, Harriston, and Middlebrook.

Our bus service this year has been much better since the county garage was moved to Wilson. The bus driver can tell the mechanic what is wrong with his bus, thus getting more efficient service. If the bus does not need the services of the garage the driver parks it on a specified lot and fills out a daily gas report for Mr. Kirby, our bus attendant at Wilson.

This year we have again posted lists of students and time schedules in our buses. These schedules are followed closely by the driver so that the student will know when to expect the bus.

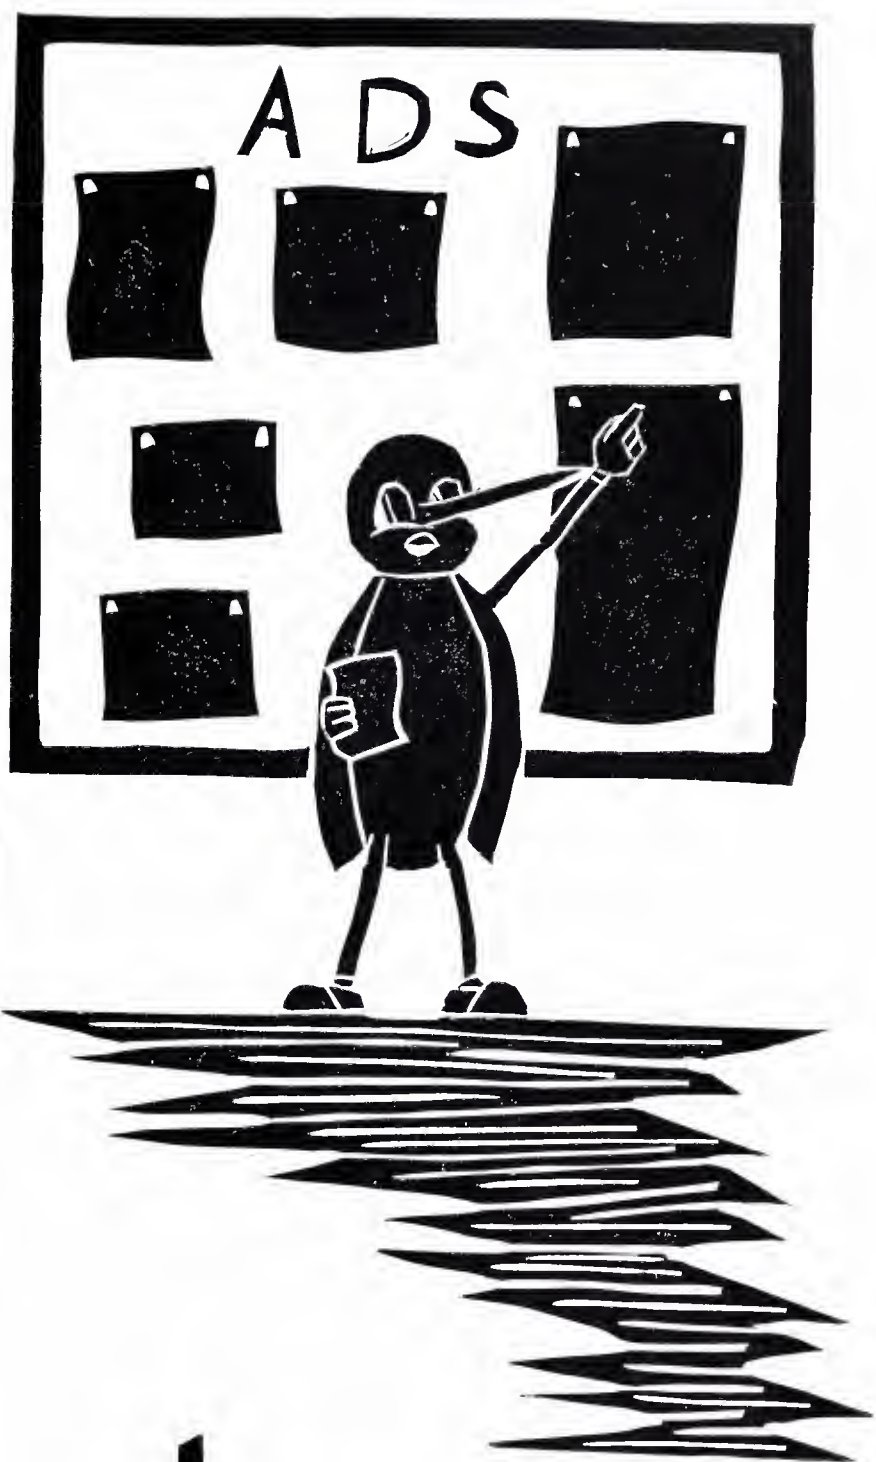

In addition to our duty as bus drivers we have given our services in patrolling at football games and other activities. It has also been our aim to make the students at Wilson safety conscious.

The officers who were elected by the club members are:

David Meyerhoeffer	<i>President</i>
Lloyd Humphreys	<i>Vice President</i>
Charles Marks	<i>Secretary</i>
Bill Wood	<i>Treasurer</i>
Pat Dudley	<i>Reporter</i>

PRIVATE ENTERPRISE

The power to choose the work I do,
To grow and have the larger view,
To know and feel that I am free,
To stand erect, not bow the knee,
To be no chattel of the state,
To be master of my fate.

To dare no risk, to lose, to win,
To make my own career begin,
To serve the world in my own way,
To gain in wisdom day by day,
With hope and zest to climb, to rise,
I call that Private Enterprise.

Whit's Potato Chips

Staunton, Virginia

Sometimes it is the nature of a craft to create an unbreakable tie between itself and the worker in that field, a heart attachment equal to lifetime devotion. One familiar example is PRINTING. Once editor, once compositor, or pressman catches the spirit of the shop, the spell is seldom broken. Like the odor of a camp fire, or a whiff of salt air, the beloved tang of printer's ink, symbolical of a great profession, gets into your heart and soul. School Annuals, Magazines, Newspapers and Special Printing, all smack of it. It is an invisible link that binds all intelligence together. It is the stimulus for creation in business or romance. This craftsmanship, this devotion to service and alertness to business needs, has nourished and developed an enormous industrial vitality, and whichever way the course of the future runs, the printer will always find himself able to adapt his helpfulness to new opportunity.

Years of experience have taught us! Printing Pays Us Only When It Pays You!
